

Understand more about your oral health by taking a simple risk assessment. Visit <https://emds.previser.com/widd-3zt67r> to access an online tool that will help you assess your oral health risks.

how it works

Take just a few minutes to **answer some simple questions online** and you will receive an easy-to-understand oral health score report that estimates your risk of tooth decay, gum disease, and oral cancer. *Please note: none of your protected health information (PHI) is ever shared, and the survey can be taken anonymously.*

After completing your assessment, print out your report to bring to your next dental appointment. **Share your results with your dentist** and, if needed, he or she can help you create a treatment plan focused on improving your oral health and score.

Get smart about your smile.

Find out your personal oral health score with a simple risk assessment.

why it's important

Oral health problems like periodontal disease and tooth decay are more common than you may think – and left untreated they can lead to more serious problems, such as tooth loss.

If you **know your specific risk factors** for tooth decay, gum disease, and oral cancer, you can take easy preventive action to help avoid these problems. Get a handle on your oral health by taking advantage of this practical health management tool.
