

# Dental benefits expanded for persons with specific medical conditions

A variety of diseases and medical conditions have important oral health implications. Your group dental plan includes Delta Dental of Wisconsin’s Evidence-Based Integrated Care Plan (EBICP), which provides expanded benefits that address the unique oral health challenges faced by persons with these conditions, and can also play an important role in the management of an individual’s medical condition.

If you have one or more of the conditions covered under EBICP, you’ll need to enroll at Delta Dental to become eligible for additional benefits. You can enroll yourself or your dependents, or your dentist can enroll you. Once you enroll, you are immediately eligible for the EBICP benefits.

## How to enroll

- Go to the home page of Delta Dental’s website, [www.deltadentalwi.com](http://www.deltadentalwi.com).
- Click on the link under the headline “EBICP: A Smarter Dental Plan.”
- Near the top of that page, you’ll see a link for subscribers to click to verify EBICP eligibility. (If you are not already a registered user of Delta Dental’s Subscriber Connection services, you will need to establish a username and password. This is done to protect the confidentiality of your personal health information.)
- After you have successfully logged in, you will be able to enter or update the small amount of health information required to qualify for extra benefits for yourself and/or your dependents. You will be immediately eligible for those benefits.
